SGI President Ikeda's Essay

The Song of Human Victory
To You, My Youthful Friends,
Who Share a Noble Vow

Erratum: Reference to FLOW No 580 dated 15.05.14, which caption on pg 6 should be corrected to read as "A discussion meeting held in Cheras, Kuala Lumpur." We much regret for the error made.

Cover Story:

The small, short-tailed, round-headed and small-billed snowy-browed flycatcher has an extremely large range specie; the male spots dark blue above while the female is olive-brown. Its population is suspected to be in decline owing to on-going destruction and degradation of its forest habitat.
