

March Towards the 21st Century

Lyrics & Music: Hugh Burns

Shoulder to shoulder,
Marching along,
Holding the banner high.

With faith in our hearts,
And joy in our song,
“Peace!” is the battle cry.

We’re building a highway of peace,
Where every man can be free.

We will fight
For the right
Of every man to be free.

**Marching forward to victory,
In the 21st Century.
We are marching forward to victory,
In the 21st Century.**

Arm linked in arm,
Together we go,
Walking the great middle way.

Fighting the poisons of fear,
Greed and hate,
Winning the fight each day.

A treasure that’s too close to see,
Freedom for you and for me.

We will fight
For the right
Of every man to be free.

**Marching forward to victory,
In the 21st Century.
We are marching forward to victory,
In the 21st Century.**

La la la la, la la la la,
La la la la, la la.

Heart close to heart,
United and free,
Facing our destiny.

The road that we travel is long,
But with hope in our hearts,
We’ll go on.

**Marching forward to victory,
In the 21st Century.
We are marching on to change
history, In the 21st Century.**
