

Step Forward

On April 10, 2020, the Soka Gakkai Youth Division launched its first online collaborative project, UTATSUKU (Make a Song), calling all youth and friends from across the world to join in the process of making a shared song.

After receiving more than 10,000 comments from around Japan and the globe about what they would like the song to convey, it was finally released on May 3, 2020.

Our voices singing together can unite the world as one. Looking to a brighter future, let's step forward with hope!
